About The Foundation...

Launched in 2009, the Credit Unions Care Foundation of Virginia believes in furthering credit unions' social mission by aiding our communities and offering a hand up to individuals in need.

We support charitable organizations, community groups and disaster relief activities, teach basic personal finance concepts to all consumers, and help individuals improve their lives through education.

Our mission is simple: Build a better tomorrow by strengthening the world around us today.

The support of credit unions, individuals like you, and corporate contributions helps us fulfill our "People Helping People" mission.

Credit Unions:
A Shelter From Life's Storms...
A Bridge to a Brighter Tomorrow

We Care...

Throughout our history, the credit union movement has practiced a "People Helping People" philosophy.

Every day, we witness the resounding effect of that philosophy and the difference it makes in the lives of our member-owners and in the welfare of the communities we call home.

The secret of our strength? We know that people are stronger cooperatively than they are competitively.

We understand that building a better future (financially and socially) benefits everyone involved.

The Credit Unions Care Foundation of Virginia carries forward the next evolution in this powerful philosophy by delivering the "Credit Union Difference" to those who need it most.

The Credit Unions Care Foundation of Virginia focuses on five key areas:

- Community micro-grants.
- Financial education.
- Scholarships.
- Disaster relief.
- Cooperation with and support of other credit union-supported charities.

Because to us, "People Helping People" isn't just another catchy slogan – it's a way of life.

The Credit Unions Care Foundation's mission is to build a better tomorrow by strengthening the world around us today.

About Credit Unions...

As member-owned, not-for-profit financial cooperatives, credit unions differ structurally and philosophically from other financial institutions. Owing to their foundation as a social movement, credit unions believe strongly that they have an obligation to work toward the betterment of their communities.

They believe, too, in people working together to achieve a better life for themselves and their communities.
